Date Docket Closes: Click or tap to enter a date.

Please provide a list of expected themes in the space below:

Themes for Human Health Risk:

Allergenicity
Antibiotic resistance
Exposure to female mosquitoes
GMOs are harmful/fatal
GMOs alter genes in humans
Disease transmission
Transfer for DNA construct to humans

Theses for Environmental Risk:

Dispersal/biological containment
Can male mosquitoes become biters
Transform gender/hermaphrodites
Endangered species
Migratory birds
Mosquito survival
Female mosquito release/female release
Super mosquitoes
Non-native mosquito strain
Effect on bats, birds, mammals, nontarget organisms
Gene introgression/change DNA of native mosquito populations
Invasive species
Opening niche for other mosquito species
Mating competitiveness

Legal Themes:

Import permit

Public hearing

Release of full EUP for comment

Informed consent/Human Study

Issue new regulations

Conformation with EPA definition of a pesticide

Other themes:

Gene drive

Penetrance

Benefits

Lab experiment vs field experiment

Dwindling number of other tools/alternates/effective alternates

Performance issues

Independent review committee

No Recall

Pesticide resistance

Pesticide susceptibility

Mistrust of oxitec

Against registration

Support registration

Request to extend comment period

Contract obligations

New paper/new information

Evidence based determination

Petition

Mass letter campaign
